

HOBART INFORMATION TRACKER

HOBART

FEATURES

- Automatically markdown random weight packages for quick sale.
- Track self-serve case inventories for random weight and fixed weight packages.
- Track all packages that are discarded.
- Track packages that are tied to a promotion.
- Transfer packages to other departments.
- Capture data on packages that are to be converted to another product type.

BENEFITS

- **REDUCE SHRINK!** Track markdowns at the item level.
- **REDUCE LABOR!** No need to re-wrap or re-label for markdowns in the backroom.
- Less confusion at the check-out. No coupon to scan.
- Complements inventory management for perishable packages.
- Complements current shrink management controls.
- Formats data for standard office productivity software.
- Loads easily onto your existing Telxon and/or Symbol handheld computers.
- Uses Hobart custom labels which offer superior adhesion quality.

MODEL

- Version 1.0

The Hobart Information Tracker is a perishable management solution that can run on existing equipment in the store. This application records various pricing and inventory data and helps reduce shrink. You can use the H.I.T. to track:

- Markdowns
- Shrink (discards)
- Inventory
- Conversions, Transfers and Re-Wraps
- Promotions

H.I.T. works with Telxon and Symbol systems and data can be uploaded to either Windows or UNIX in-store computers. Data upload options:

- Wireless
- Wired serial link

The information collected is stored in easy to interpret spreadsheet-ready data files as follows:

- Each upload creates a separate file.
- Each mode (markdown, inventory, etc. . . .) is contained in a separate file.
- The store name, date and time are included as the file name.

HOBART INFORMATION TRACKER

HARDWARE

TELXON REQUIREMENTS:

- PTC-960DS or PTC960SL
- MS-DOS Version 5.0
- 200-220K free RAM disk space for program and data file storage (should accommodate 1,000 records)
- TCP/IP RLAN network for wireless TCP/IP support
- Dedicated RS-232 port for serial support

SYMBOL REQUIREMENTS:

- PDT3540, PDT6840, PDT3140 or PDT6140
- MS-DOS Version 5.0
- 200-220K free RAM disk space for program and data file storage (should accommodate 1,000 records)
- 2.4Ghz 802.11 Spectrum 24 network for wireless TCP/IP support
- Dedicated RS-232 port for serial support

SERVER REQUIREMENTS:

- Operating System support includes Windows 95/98/NT/2000 and various versions of Unix
- Access to the in-store wireless network for wireless support
- Access to a RS-232 port for serial support
- 8 MB RAM
- 20 MB Hard Disk Space

PORTABLE PRINTER REQUIREMENTS:

- COMTEC MP5022 or MP5033 Printer
- COMTEC Encore Printer
- Monarch Rascal Printer
- Hobart labels - approximately 250 per roll

CABLING REQUIREMENTS:

- TELXON or SYMBOL handheld computer to printer cable
- DB-15 to RJ45 connector for the PTC-960SL
- TELXON or SYMBOL serial cable for installing the application on the handheld computer
- TELXON or SYMBOL serial cable or cradle for serial data uploads
