ADD-ON KIT****HOBART****ADDITIONAL GUARDING . . .  
WITHOUT SACRIFICING  
PRODUCTIVITY OR SANITATION!**

- Bowl guards may be added to existing current model Hobart mixers. Installation must be by factory trained technician.
- Bowl guards are standard on all new 20 quart and larger mixers.

**ADVANCED PROTECTION**

- Two piece guard adds protection to the mixing operation.
- Front portion of guard rotates around inside rear portion.
- Guard must be in closed position before mixer will run.
- Bowl support must be in the up and locked position for the mixer to run continuously.

**RUGGED CONSTRUCTION**

- Heavy-duty stainless steel wire front portion and solid stainless steel rear portion are designed to ensure durability under heavy mixing applications.

**OPERATOR CONVENIENCE**

- Front portion of guard rotates easily to add ingredients and install or remove agitator. It detaches in seconds for cleaning in dishwasher or sink.
- Rear portion of guard can be quickly cleaned in position.

**INGREDIENT CHUTE**

- Optional stainless steel chute can be attached to the front portion for adding dry or wet ingredients. It detaches easily for cleaning.

**Bowl guard must be in closed position before mixer will operate.**

**Bowl guard can be rotated open for fast removal of agitator and bowl.**

As continued product improvement is a policy of Hobart, specifications are subject to change without notice.
